

WE ARE APPOINTING TECHNICAL EXPERT

Malaysian Green Technology and Climate Change Centre (MGTC) is an agency of the Ministry of Environment and Water (KASA) mandated to drive the country in the scope of Green Growth, Climate Change Mitigation and Green Lifestyle.

We are in-search of experienced, dedicated and highly motivated individual to be appointed as [Technical Expert in the preparation of CEO Endorsement Document.](#)

The Job

MGTC has proposed the project *Accelerating the Adoption and Scale-up of Climate-Smart Transport in Malaysia* to the Global Environment Facility (GEF) for its next funding cycle. The Project Identification Form (PIF) has been approved and the subsequent step is the Project Preparation Grant Phase (PPG) in which comprehensive project proposal will be developed (CEO Endorsement document).

The preparation of the document is based on the official GEF format and requires considerable consultation with various stakeholders (including industries and relevant associations). The CEO Endorsement document will be developed with the Ministry of Environment and Water (KASA), MGTC and United Nations Industrial Development Organization (UNIDO).

As the project duration is only for 5 months (September 2021 until January 2022), the TE is expected to work closely with the project team to ensure that the CEO Endorsement document is completed by January 2022. Upon the completion of the draft document, validation meeting / workshop is to be conducted with the key parties, prior to the submission of the document to GEF.

The Person

- An established expertise in working in the energy sector, with particular experience in the technologies and economics of electric mobility. The TE is expected to have at least 7 years of working experience in relevant fields, in particular in electric mobility, renewable energy, and sustainable battery use in Malaysia;
- University degree in the field of energy (or similar through experience) in the field of energy and electric mobility with good understanding of technical, financial and managerial aspects of implementation of projects in the industrial sector;
- Demonstrated experience in Technical Cooperation in Malaysia; familiarity with GEF project cycle and requirements, especially on writing GEF documents;

- Very good conceptual and writing skills;
 - Excellent command of the English language;
 - Experience of working on similar assignments in Malaysia; and
 - The expert should be based in Malaysia.
-

Interested candidates are invited to submit his/her updated CV together with a cover letter detailing prior experience / exposure on the GEF project cycle including expected payment by 1 September 2021, to amirah@mgtc.gov.my Please include **“Application for Technical Expert (TE) – PPG”** as the subject email.

Details provided will be treated in strict confidence. Only shortlisted candidates will be notified.
