CERTIFIED ENERGY AUDITOR TRAINING

INTRODUCTION

Certified Energy Auditor (CEA) training covers the knowledge and skills required to perform inspection, survey and analysis of energy flows for energy conservation in a building, process or system to reduce the amount of energy input into the system without negatively affecting the output. The training also covers the use of energy audit tools and report writing skills. Led by experienced energy auditors and managers, trainees will be exposed to real-life examples of performing energy audit tasks, things to do and not do, and updated input from the industry. Eventually to allow the Certified Energy Auditor to be the one qualified to audit any facility especially those covered by EMEER 2008 Regulations or any energy audit programme by the Government and their agencies and will be acknowledged by Suruhanjaya Tenaga.

COURSE OBJECTIVES

To provide structure to the practice of energy auditing and raise the professional standards of those engaged in energy auditing.
