CERTIFIED PROFESSIONAL IN MEASUREMENT AND VERIFICATION

Certified Professional in Measurement and Verification (CPMV) is a certification training module that aims to facilitate the **end users** and **energy service company** to conduct measurement and verification activities for energy saving programs.

The module covers the fundamental concept of energy savings, available options for Measurement and Verification (M&V) activity, plan, uncertainty and statistics.

Course Objectives

- Facilitate energy end users to develop proper M&V strategy for their Sustainable Energy Management System (SEMS).
- Provide participants with knowledge and a structured application of reporting energy savings.
- Produce Certified M&V practitioner to verify energy saving projects (upon passing of exam).
- Provide individual capacity building skills.

Who should attend?

Sustainable Improvement Team, Energy Managers / Energy Consultants, Technical Staff, Energy Service Companies' staff, Energy Management Committee Members, Facility Owners, Architect, Trainers & Lecturers

Course Outline

- Differentiate characteristics of different M&V options.
- Evaluate and propose the best M&V option that suit objectives of Energy Conservation Measure (ECM) project.
- Develop a proper M&V plan according to standards and protocol.
- Calculate energy savings using cost avoidance and normalized saving techniques.
- Employ basic statistical formula for determining uncertainty in reporting energy savings.
- Perform statistical analysis from the measurement data for quantifying energy savings.
- Express savings with relative precision and confidence level.

***Full attendance of programme shall entitle participants to 12 CPD points from Energy Commission (Suruhanjaya Tenaga)**
